reaching new frontiers

Sasol Wax

EnHance

EnHance

EnHance is a straight chain, pure, Fischer-Tropsch (FT) hydrocarbon. Its unique chemical structure imparts to it an attribute that has been found to be extremely beneficial to the processing of Polyolefins. This attribute of low viscosity in the molten state has been through numerous plant/production scale trials globally, proven as a beneficial processing aid in improving the productivity and efficiency of the following [PO conversion](#)

- injection moulding
- extrusion
- compounding
- extrusion blow moulding

There are two grades on offer:

- EnHance
 - EnHance FG
-
