## Environmental Protection Policy

### Environmental Protection Policy

Sasol Wax will conduct its business such that the quality of the air, water and soil be protected for the continued benefit of all ecosystems. In this way, the needs of present and future generations will be met.

Sasol Wax is committed to act responsibly and with due regard to the effects of its operations and products on the environment.

Protecting the environment is an obligation - not a choice.

In order to implement this policy, Sasol Wax will:

- manage and use land, raw materials and resources responsibly.
- monitor and audit environmental performance of all its operations and activities according to internationally accepted environmental management standards
- conduct environmental impact assessments when establishing new facilities
- adopt the best affordable technology to limit emissions
- support research into the protection of the environment
- practice the recycling, reprocessing and re-utilisation of waste materials and the rehabilitation of disturbed land
- promote environmental awareness and responsibility among employees, customers, suppliers and the community at large
- maintain open relations with employees, relevant authorities and the community
- conform to environmental legislation as well as safety and health legislation in the country where business is conducted.
