

Sasol Wax

Sasol Wax - Your Specialist for Paraffin Wax for All Types of Candles

Sasol Wax - Your Specialist for Paraffin Wax for All Types of Candles

We have been concentrating on the development of paraffin waxes and speciality waxes for candles for many years now. Our extensive and varied product range enables us to offer you the wax best suited to your product requirements and production processes.

We guarantee the reliable and smooth processing of our products. We work in close co-operation with leading machine and wick manufacturers to fine-tune our paraffin waxes so that they meet the individual demands of manufacturing machines and production lines.

Sasol Wax offers paraffin waxes of hydrogenation quality, which accord with the [RAL quality mark](#) criteria specified for candles.

Our considerable experience in candle wax and our collaboration with the specialist suppliers of products such as wicks, colours and fragrances allow us to offer you guidance in candle related application techniques, if so required. This may either be at our company or at a venue of your choice.

Please contact us and we will be glad to assist you.
