reaching new frontiers

Sasol Wax

Hydrogenerator

Hydrogenerator

Since 1992, Sasol Wax has been producing its base petroleum waxes by one of the most modern and environmentally friendly refining methods: the hydrogenation process.

The hydrogenation process ensures that our products could meet the purity requirement of DAB, Pharm., EUR, CP, BP, USP, NF and FDA and BgVV.

Our hydro-treated products are non hazardous and environmentally friendly.

They are of "hydrogenation quality" .
