Sasol Wax

Micronised Powders for Inks & Coatings

Micronised Powders for Inks & Coatings

Sasol Wax offers a range of micronised waxes. The spherical particles of micronised sprayed powders and the low surface tension of Sasol Wax Fischer-Tropsch waxes ensure excellent slip performance in a variety of different types of inks, coatings and powder coatings. Our micronised waxes are produced in a variety of particle sizes and molecular weights by the use of the spraying process.

Application

Sasolwax®

Lithographic heat set and
sheet fed inks

- **Spray 30**
- **Spray 105**

Water based liquid inks

- **Aqua 30**
- **Aqua 30S**
- **Spray 30**

Solvent based liquid inks

- **Spray 105**

Newspaper inks

- **H1N4**
- **C105N4**

Powder coatings

- **Spray 105**

Lithographic heat set and sheet
fed ink dispersions, screen inks

- **Spray 405**
 - **Spray 40**
