reaching new frontiers

Sasol Wax

Packaging

Packaging

Our products are either sold in liquid bulk or filled in drums and are also solidified into slabs, powder and pastilles.

In our Hamburg based production, we have a variety packaging equipment available, including a fully automatically operating slabbing plant and two spray towers for powdering as well as various production lines for pastilles.

We are even able to offer fragranced and coloured powder. This new plant was commissioned in May 1999.
