## Research and Development

### Research and Development

---

Sasol Wax is the leading specialist in the manufacture of paraffin waxes and synthetic waxes as well as wax related products world-wide.

Sasol Wax develops innovative product concepts which ensure that you are strategically positioned in future markets. Our in-depth application expertise is your key to success.

- We guarantee the on-going optimization of our products through long term projects in fundamental research.
- In close co-operation with our customers, we develop products specifically designed to fulfil individual requirements.
- Our world-wide research and development centers are constantly looking for new application areas for our paraffin waxes and synthetic hard waxes.
- Our laboratories are equipped with the most modern analytical instruments and equipment, for example gas chromatography, GC-headspace, GC-MSD, UV/VIS, infrared and fluorescence-spectroscopy, differential scanning calorimetry, vapour pressure to determine molecular weight and microscopy.

The experience and expertise of our research and development department is at your disposal. We look forward to being of further service to you.
