

Pharmaceutical White Oils

MERKUR[®] and VARA[®] Pharmaceutical White Oils

Pharmaceutical white oils stand for flexible use in the pharmaceutical, personal care and cosmetics fields and in a variety of industrial applications.

Pharmaceutical white oil / liquid paraffin

Under the trade names MERKUR[®] and VARA[®] we offer our customers an extensive range of pharmaceutical white oils. Pharmaceutical white oils are non- fluorescent, tasteless and odorless products that are used not only in the pharmaceutical and personal care/ cosmetics industries, but also in the food industry. Pharmaceutical white oils are generally recognized as safe (GRAS). The products are not known to have any allergenic, skin irritation or toxic side effects.

INCI: Paraffinum Liquidum / Mineral Oil (USA)
