

AdSperse

AdSperse®

The **AdSperse®** range of FT dispersing aids has been designed for use in the production of colour, black & white master-batches.

The two characteristics of low viscosity and surface energy imparts to **AdSperse®** the ability to efficiently wet and coat pigments, fillers and additives whilst at the same time facilitating dispersion within the polymer matrix and preventing re- agglomeration of the primary pigment particles.

There are three grades currently available:

AdSperse® 868

AdSperse® 500

AdSperse® 100
